Scrivener

by LiteratureandLatte.Com

The screenshot shows the homepage of Literature and Latte. At the top is the logo and a navigation menu with links for Home, Products, Forum, Blog, Support, Links, About Us, and Contact. Below the menu is a secondary navigation bar with links for Video Tutorials, Published Authors, Who Uses Scrivener?, Case Studies, and Books on Scrivener. The main content area features the Scrivener logo, a 'Free Trial' offer, and a 'Buy Now \$40* USD' link. There are also buttons for 'Windows 10 Ready' and 'Show Mac OS X Version'. Below this is a section titled 'What is Scrivener?' and 'Features'. The central image shows a 3D rendering of the Scrivener software interface, including a document editor, a corkboard for notes, and a calendar. At the bottom of the page, there are three buttons: 'Watch Video Tutorials', 'Read Testimonials', and 'Explore Case Studies'.

- Scrivener is a powerful content-generation tool for writers that allows you to concentrate on composing and structuring long and difficult documents. While it gives you complete control of the formatting, its focus is on helping you get to the end of that awkward first draft.

HemingwayApp.com

by hemingwayapp.com

Hemingway App makes your writing bold and clear.

The app highlights long, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, splitting logic — try editing this sentence to remove the red.

You can **utilize** a shorter word in place of a purple one. Mouse over it for hints.

Adverbs are **helpfully** shown in blue. Get rid of them and pick verbs with force instead.

Phrases in green have **been marked** to show passive voice.

You can **format** your text with the toolbar.

Paste in something you're working on and edit away. Or, click the Write button to compose something new.

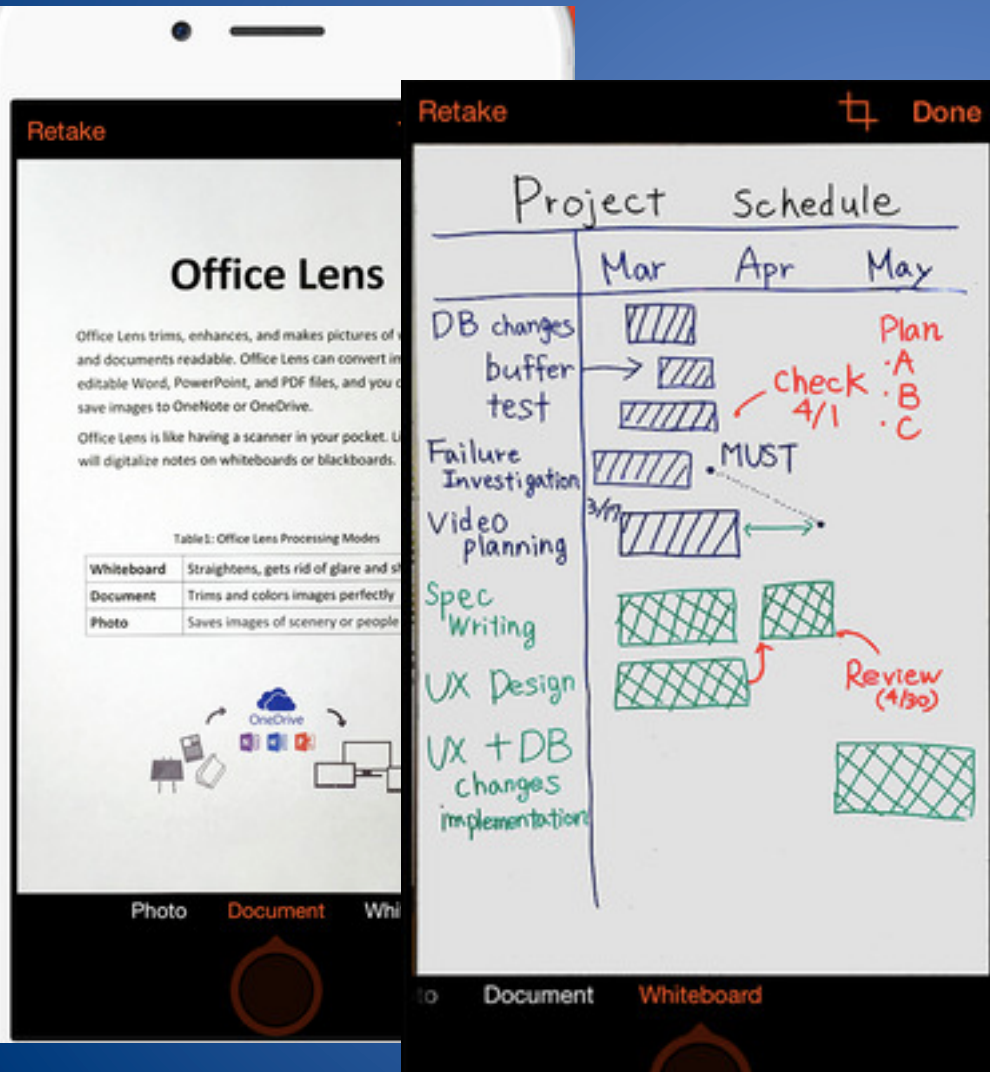

- The Hemingway Editor highlights common problems that can get in the way of clear writing:
- Complex words or phrases
- Extra-long sentences
- Long sentences
- Too many adverbs
- Too many instances of passive voice
- It colour codes each potential error type, so you can address them one at a time. \$9.99
